

# ERGOMAX™ MIG GUN

## Source Capture Weld Gun Vacuum Data Form

In order to select the proper welding gun for the application, we require the following operating data:

Welding Voltage	
Welding Amperage	
Shielding Gas	
Wire Size	
Wire Type (solid, flux core, metal core)	
Wire Feeder Manufacturer	
Wire Feeder Model	
Power Source (circle one)	Standard or Pulse Arc
Watts (welding voltage x welding amperage)	

Please provide photograph(s) of the weld gun connection to the welder, the back end of the current weld gun hose.
